

DESIGNED BY THE FRONT LINES FOR THE FRONT LINES. In a hell of swirling

sand and hurling shrapnel, soldiers know exactly what they need for eye protection. That's

why Peltor went directly to the front line troops for input before creating the NightHawk

system. They talked, we listened. Then, armed with two years of research, we delivered. We

delivered exclusive features including a sand-resistant filter. Advanced optics with a

distortion-free 180° viewing range. Optimized impact protection. Plus, a universal RX

insert that fits both the spectacle and goggle. **Feature for feature, no other eyewear**

system goes eye to eye with NightHawk. **ABSOLUTELY NONE.**

THE ULTIMATE EYEWEAR FOR DESERT WARFIGHTERS

THERE'S NOTHING ORDINARY ABOUT THIS WAR.

*That's why there's nothing ordinary about the NightHawk eyewear system.*

These innovative goggles and spectacles are not only designed to protect against the volatile dangers of combat. They are also designed to protect against the pounding challenges of the desert conditions.

No other eyewear system has the innovative features, advanced optics and the high-performance capabilities of NightHawk – the ultimate eyewear for desert warfighters.

## NIGHTHAWK GOGGLE

**Ultra-Soft, Ergonomic Seal**  
Soft polymer flexes to fit virtually every face shape snugly and comfortably to seal out particulates around the eyes, forehead and nose without gapping or pinching.

**Exclusive Sand-Resistant Screen Venting**  
Innovative vent system on top and bottom of goggle resists powdery sand while increasing air flow for cooler wear and better anti-fog performance. Will not retain moisture.

**Protective Lens Shroud**  
Helps prevent scratching and keeps lens clean. Lightweight microfiber.

**ADVANCED LENS OPTICS AND 180° DISTORTION-FREE VIEW**  
No other eyewear provides a wider viewing range than the NightHawk goggle and spectacles. Developed by Zeiss, the leader in optics, the curvature of the wrap-around lens provides distortion-free frontal and peripheral vision – the clearest in the field.

### CHOICE OF THREE FRAME COLORS

Choose from Covert Black, Foliage Green, or Desert Tan/Coyote frame colors. Includes matching strap and shroud.

**Lightweight Lens Material. Optimized Impact Resistance.**  
Tough polycarbonate protects against sand, shrapnel and other flying particles.

**NightHawk Goggle meets Military V0 Regimen for High Velocity Impact\*\* and ANSI Z87.1 High Impact**

**Exclusive FitLoop Adds Comfort and Versatility.**  
The FitLoop cable "threads" around the perimeter of the goggle to equalize sealing pressure for added comfort at all touch-points. Headstrap clips and slides on the Loop to easily fit under or over helmets without compromising seal closure.

**Lightweight "Attachable Case."**  
Each goggle and spectacle includes a lightweight case to protect eyewear and extra lens when not in use. Microfiber lens bag/cleaner is included. Case straps to vests, belts and combat vehicles.

  
**Meets Buy American Act and Berry Amendment**

\*\*COMPLIES TO MIL-43513C USING TEST METHOD MIL-STD-883F (950 Ballistic Test for Armor) - 137 Shaped (22 cal.) Projectile @ 550 ft/sec.  
\*\*\*COMPLIES TO MIL-21013 USING TEST METHOD MIL-STD-883E (950 Ballistic Test for Armor) - 137 Shaped (15 cal.) Projectile @ 850 ft/sec.

## NIGHTHAWK SPECTACLE

**Thin Temples Hold Securely Without Interfering with Headsets**  
Special low profile design has minimal affect on attenuation levels.

**Easy-Change Lenses In Gray & Clear**  
Specially designed lenses have integral gaskets to help them snap-in-and-out of goggle frame in seconds. No other lens exchange system is easier or quicker.

**Adjustable Nosebridge**  
Fits virtually every size nose for an optimal seal and snug "hold" to help prevent movement during maneuvers.

**Lightweight Durable Frame**  
Molded frame stands up to the rigors of combat while being so lightweight it remains comfortable during extended wear.

  
**MILITARY'S LARGEST COVERAGE LENS WITH 180° DISTORTION-FREE VIEW**  
Like the goggle, the Zeiss lens provides outstanding wrap-around impact protection with an unparalleled viewing range.

**NightHawk Spectacle meets Military V0 Regimen for High Velocity Impact\*\* and ANSI Z87.1 High Impact**

**Easy-Change Lenses In Gray & Clear**  
If conditions change, just change the lens – in seconds.

### CHOICE OF TWO FRAME COLORS

Covert Black and Foliage Green

**UNIVERSAL RX INSERT FITS BOTH GOGGLE AND SPECTACLE**

An exacting slot-and-tab design ensures precise positioning in both the goggle and spectacle – without vision shifts. The expense of two inserts is eliminated.

Accommodates a wide range of prescriptions from -11 to +11D, including multifocals.
